About Neeweh

Neeweh Publishing started its activity since 2018, focusing on picture books. However, books with an approach to the needs of women and families have also been seen in this activity.

In Neeweh, we have a special view on the issue of environment and endangered species. Also, the re-creation and rewriting of old stories has been another topic of interest. We are happy that a large number of our titles have been approved and received badges in the Center for Organization of Educational Resources (Roshd).

Our team is very careful to prepare content and format, and we try to produce quality works with the help of creative and thoughtful author and illustrators.

Neeweh has participated in international exhibitions and is trying to gain a prestigious and worthy position in this field.

The Journey of the Deer

نویسنده
معصومه میرابوسالعی
تصویرگر
پرناز کریمی

Did you know that there is a type of deer called the Iranian deer, which is bigger than the tundra deer and its skin is lighter?

In this story, you will meet that deer. The author has talked about the way of life and habitat of Iranian deer and dangers such as drought and hunters that threaten them in the story. The main character of this story is a little deer who is afraid of the sound of arrows.

In the middle of the story, the father of the family is killed by a hunter's arrow and the little deer and its mother are taken to the protected area.

A Thousand Grandfathers of Coral

Corals are the shelter and habitat of many other marine creatures. Today, when the increase in temperature and the warming of the ocean water have caused many of these beautiful reserves to disappear, this story reminds us of the importance of paying attention to these beautiful and resistant creatures. The pictures of the hand-printed book are very beautiful and delicate
